It may well be imagined that revents of the past two days caused much astonish-at. Less than a year ago a small force of the enemy ered indiana from Kentucky, and after a stay of twelve re recressed and escaped. This time they manifested ir regard by making a more extensive ride and a longer y. They entered day before yesterday, and are still ring them every attention in our power. Some of them manifest a desire to go so Kentucky; but we are not yet through with our hos-

what was then supposed to be a force of guerillas. They is little damage except to plunder the stores and help themselves to whatever portable property struck their fancy. Horses suffered particularly, they being a self-moving article of plunder. Medicines, wearing apparel and boots and shoes were also much in demand. After a stay of a lew hours in the town, the rebels moved off to stay of a lew hours in the town, the recess instead of the couthward, and it was supposed they had-retired to the Cumberland river. They stated that they belonged to Capt. Hind's company of the Second Kentucky cavalry, and were attached to Mergan's brigade. They were well wood with sabres, carbines and revolvers, and uniform do to the regular uniform of rebel cavalry. They were ied from eighty to one hundred and thirty strong-

After leaving Elizabethtown nothing more was heard from them until on Thursday last. Word was brought that five hundred rebels were crossing the Ohio, near Lavenworth, sixteen miles below this point. Hardly had the news become circulated before another messen ger arrived confirming the statement of the crossing, but placing the rebel strength at three instead of five hun-

The thio is now to low, and at Leavenworth it spreads out for nearly mile in width and becomes very shallow. It is at this point that boats frequently run aground during low stages of water.

After crossing the river the rebois made no delay, but jushed rapidly forward for a raid into the river counties. Crawford, Orange and Washington counties hay before them, and into these they pushed as rapidly as possible. They moved in a compact bedy, throwing out secuts on each side, for the double nurpose of guarding against surprise and bringing in any good horses that might be found. This portion of ladiana abounds in good horses, and from indications the rebels had been well apprised of this fact. They knew the names of such farmers as had fine stock, and were earnest in their inquiries for a Mr. Braxton, who resides near Paolt, in Orange county. On reaching Paolt, about six o'clock on Friday evening, they immediately commenced a search for horses and medicines, and before leaving they ransanked every store, taking whatever they wanted. They found Mr. Braxton, and, not content with taking his best horses, made him a prisoner.

Most of their own horses were thin and broken down, and as fast as they found fresh ones they changed saddles and about net their former steeds. Nearly all the horses they let bore the brand "M. C.," such as is placed upon all the animals of Morgan's cavairy. They had evidently seen hard service.

all the animals of Morgan's cavairy. They had evidently seen hard service.

Before arriving at Paoli the rebels entered the town of Vallini, Orleans county, the first that lay in their route after leaving the river. Here they demanded food of the citizens, and threatened to burn the town in case the demand was not complied with. The citizens were not prepared to accommodate such a large number of guests, and the delay in the preparation of dinner incensed the rebels so that they fulfilled their threat of setting the town on first. As soon as they had done so they moved off, and by the exertions of the citizens a portion of the village was neved from destruction.

As soon as they had done so they invoce on, and by the exertions of the citizens a portion of the village was aved from destruction.

From Paol, the rebels moved towards Orleans, keeping up their system of stealing as they proceeded. Shortly ster leaving Paol they made a halt of several hours for the purpose of gathering in horses from places some distance from the road. News of their movements had spread like wildfire, and their numbers were magnified to a wonderful extent. The Home Guard in all the larger towns had been assembled, and made ready to meet them. Two companies from Mitchell, about one bundred strong, started as soon as they could be got together, and reached Orleans about one o'clock yesterday morning. At that time the rebus had completed their halt, and were moving towards Orleans. Hearing of their advance, the Mitchell Home Guard moved out from Orleans to meet them. About three o'clock they encountered them three miles out from Orleans, and a brisk skirmish ensued. For fresh troops the Home Guard fought well, but their enemies had the advantage of long service. The Home Guard were repulsed, with a less of three wounded and twelve captured. The skirmish lasted about, an hour.

Yesterday meraing a force of four hundred convalencent Home Guards left this place for Orienna, but did not arrive there in time to take part in the aktrimish. New Albany was prepared for an assault, and had the rebels possessed the courage to attack us they would have not a warm reception. All along this border we are on the lookoud, as raids similar to the one just completed have been threatened for a long time.

It is runnered that there is another band of rebels a short distance back of Henderson, who are preparing for a raid into Indiana. If the people in that portion of the state exercise proper vigilance they used fear nothing for the result.

The present raid will have an excellent effect in uniting the citizens for the defence of their homes. Party and political differences are forgotten in the common cause in which all are interested.

Only a week ago in Orleans there was resistance to the corrolment on the part of several citizens. It was hoped that the rebels would have reached the residences of these individuals and given the anti-war men an opjortunity to know what a rebel soldier is. It is not likely there will be much resistance to the draft in that vicinity in future.

JUDGE BETTS REPUSES A CERTIFICATE OF REASONABLE CAUSE OF SEIZURE IN THE "RIOTTED INVOICE" CASE OF SUGARS.

UNITED STATES DISTRICT COURT.

Before Hon. Judge Betts.

JUNE 24.—The United States ws. Thirteen Hundred and Eighty-two Boxes Sugar, Luling, Claimant, -Several weeks since we published an extended report of the trial before Judge Betts and a jury of the above entitled case. Our readers will remember that this is the case in which the government sought to forfeit an invoice of sugar imported by Mesers. Charles Luting & Co., valued at about \$50,000, because some of the numbers on the invoice nesignating the butte standard clussification of the sugar were biotted out, and in which the jury condered a verdict for the claimants on all the counts in the information. On the rendition of this wordlick the counsel for the United States meved like Court for a "certificate of reasonable cause of soiture," in order to protect Collector Barney from a suit for damages for the illegal seizure of the property. This motion was resisted by the counsel for the claimants, who insisted that the Collector had no "reasonable cause of seizure." The motion was fansly argued before Judge Betts on the 13th inst., the United States and the Collector being represented by Mr. E Delafield Smith, United States District Attorney, Attorney General Dickinson and Mr. Effam Alkin, and the claimants by Mesers. Webster and Craig.

The Court this morning rendered its decision, and directed the entry of an order decaying the motion.

The Judge concluded his order by saying.—The averments and charges in the libel of information and the proofs and allegations prosented on the trul of the aforesaid prosecution having been fully heard and considered, and it not being made to appear to this Court, pursuant to the provisions and requirements of the said act, "that there was a reasonable cause of scizure" of the said unpers at the time souch scizure was made, it is creered and addeded by the Court that the application and motion for such certificate of freaestable or probable cause of scizure is accordingly withheld by the Court.

I am compelled to say, in justice to myself, that there were only four persons, present at the hotel on the occasion in question, two of whom were personal friends and one of whom accompanied me there. I intend to show, by a judicial investigation, that the man who has endeavored, by setting on foot a criminal praceution against me, and who so persistently improves from me an apolyry, was in fact the author of all the trouble which occurred. And until such investigation is had I sak my friends to mapped judgment against me.

Money continues quite easy; call leans 6 a 7 per cent. Lenders seem to have got over their fright, and to be quite willing to accommodate the brokers on the usual margins. Several houses refused to allow more than five per cent for money to-day, and there were decidedly more leans at 6 than at 7. Maryland appears to have proved absolutely fatal to an old fancy of our stock market-Cumberland Coal. For two or three years the railroad has been unable or unwilling to make terms with the company for the transportation of its coal, and the business has been done through the canal. That has now been completely destroyed by the rebelsso completely, as we learn, that it would take year and a very large sum of money to repair it. Under these circumstances we presume that the operations of the company will cease altogether, and that the stock will gradually sink until it folmain of history. There was a time, many years ago, and again in 1858, when shrewd men reposed faith in Cumberland. But for a long time past no one who was conversant with the facts has deemed it worth anything. Ever since 1860 the directors have paid interest on their bonds by speculating in Liverpool coal, and using their yards to store it. Their own legitimate business has not paid expenses for four years. Such a fancy can well be spared from the stock list.

We learn that the Harlem Railroad Company have contracted for the iron to be laid down in substantial pattern.

Gold was rather better than yesterday. There is no pressure of gold on the market for sale, and holders seem content to wait. The inquiry is a shade more active than it was. It closed 143% a 144. Brokers report a more active demand for bills to-day. Bankers' rate was 166% a ½, some leading houses refusing to draw below 157. Mercantile bills sell at 155% a 156 for very good signa tures. Even at 167 bills are relatively cheaper than gold.

The stock market was very active this morning, and the tendency of prices was uniformly upward. Hudson, which is the most active fancy of the day, sold at 140—an advance of 4 per cent since last evening; Erie rose 1, Pacific Mail 3½, New York Central 1, Frie preferred ½, Michigan Central 1, Southern Ohio ½, Illinois Central 1½, Cleveland and Pittsburg 1½, Toledo 2½, Rock Island ½, Mississisppi and Missouri 3. As yesterday, the chief excitement was on the New York shares. For Harlem there was a very active and general inquiry; but the advance in the price was checked by a large sale by one house—supposed to be a bear sale. Very little was done in governments, State stocks or railway bonds. After the board the market was steady, and this was its character at the one P. M. session of the public board. Pacific Mail was wanted at an advance of ½ per cent since last stocks or railway bonds. After the board the market was steady, and this was its character at the one P. M. session of the public board.
